What information is the Council wanting to read on this form?

The Council would like to know about projects or plans that you are considering, or that you would like the campus to consider, which have campus-wide implications. This means that those affected by the proposal cross unit or department "boundaries" or that the proposal will require university resources. The Council would also appreciate being informed of new policies governing the use of technology on campus (or changes to existing policies).

What will the Council do with this form?

The Council will review the proposal as outlined in the form. If more information is desired the Council will contact the Chair of the proposing committee.
